Faculty Librarians are all here to give you one-to-one support and help in using the library.
Faculty Librarians understand the amazing massive collections
There is so much available – it can potentially be a bit overwhelming. FLs can teach you to use tools that can help you manage the information you’ll be gathering in for your research.
Faculty Librarians

• The library has a role supporting researchers and research students and we provide people, collections, services and spaces to help you
• There is a specialised Faculty Librarian in every Faculty to give HDR student(s) one-to-one support and help in using library
• Faculty librarians have many tips to save time, think of us as your information skills coach
• Email, phone or drop by – we are located in your Faculty and we would love to meet you
Research toolkit – online support
Mapping library workshops to the HDR Journey

CANDIDACY
- Super Searcher
- Thesis by Publication

DATA MANAGEMENT
- Data Management
- EndNote Extras

LITERATURE REVIEW
- Literature Review
- Focus on Scopus
- Setting up Alert

ANALYSIS
- Tools for Data Analysis
- Beginners Guide to SPSS
- Introduction to NVIVO
- Statistical Theory

SUBMISSION
- Copyright

DISSEMINATION
- Tools for Publishing
- ORCID
- Finding Quality Journals & Open Access

PRESENTATION
- Data Visualisation

Endnote X9 LibGuide
Use EndNote – reference management software supported by the library – this is a life saver – if well used, it will save you time and help you organise all your references, and cite your sources correctly to help you avoid plagiarism. Free download from Library guide. Free workshops.
Email, phone, Skype, WebEx or drop by – we are located in your Faculty and we would love to meet you physically and virtually.
Faculty Librarians

**Science and Engineering Faculty Librarians**
