Curtin Library

• The library has a role supporting researchers and research students and we provide people, collections, services and spaces to help you

• There is a specialised Faculty Librarian in every Faculty to give HDR student(s) one-to-one support and help in using library

• Faculty librarians have many tips to save time, think of us as your information skills coach

• Email, phone or drop by – we are located in your Faculty and we would love to meet you
Robertson Library

about to undergo a major refurbishment, on the right is an artists impression......the Library, built in 1972, now requires significant infrastructure works to address end-of-life services and ensure reliable and sustainable operations. There is a three year plan for construction of a new services tower, the revitalisation of internal spaces as well as enhancing the connection with surrounding public areas.
Postgraduate study room on level 5 – open to all postgraduate and VC’s List students; with ergonomic seating at 12 work stations as well as casual seating, etc.. Swipe card only access, so if you are looking for a quiet space to study in the library – that’s your VIP Lounge.
Relax on level 3!
There is so much information available – it can potentially be a bit overwhelming. Faculty Librarians can teach you to navigate through efficiently and to use tools that can help you manage the information you’ll be gathering in for your research.
